📖 RESUME SUMMARY

I am a B.Tech graduate in Computer Science from Maharaja Agrasen College Of Engineering And Technolo, with a strong foundation in HTML, CSS, JavaScript, and jQuery. I have developed user-friendly web interfaces, notably the MyntraClone Homepage, which showcases my front-end development skills. Certified in JavaScript, I am also proficient in Object-Oriented Programming and MS SQL Server. I excel in both independent and collaborative environments, effectively communicating in Hindi and English. W

☰ PERSONAL DETAILS

🔶 INTERNSHIPS AND PROJECTS

Projects	**MyntraClone Homepage** (Duration July 2024 - July 2024) This project recreates the homepage of Myntra, a popular e-commerce platform, having a sidebar menu which is created by using only HTML and CSS and ensures the website is accessible and looks good across different devices. It does not include backend functionalities like user authentication, dynamic data fetching, or database integration. In the Header section we have Myntra logo and navigation links (Men, Women, Kids, Home & Living, etc.) Search bar with placeholder text. User profile icon. In the Main section we have product details, images, product price/discount etc. In the footer section we have Informational links (About Us, Contact Us, Careers, etc.). Skills used - HTML,Css/Css3
